passenger seat of the U-Haul and a truck half full of mostly now obsolete winter clothing. My first month here I think I said to myself "How can it possibly be this hot outside?" twenty times a day and my water bill skyrocketed as I realized the need to take 5 showers a day due to sweating through a shirt within seconds of being outside. Welcome to SE Georgia! All weather related jokes aside, I have fallen more in love with this town and the OC community each day that passes. The people are great. The town is beautiful. And OC is truly a special place and one that I look forward to seeing grow and prosper and reach levels of success that I know we are capable of. Anytime change is involved, it can be chaotic and even feel overwhelming at times and I just want to take this time to let all of you know that we are aware of the bumps in the road that have come up along the way. I also appreciate all of the input and shared concerns and constructive criticism from membership. I am here for one reason and that is to make sure that OC gets the attention and care that it deserves and has been lacking for several years from previous ownership and management. Yes, of course there will be some more bumps along the way, but our final destination is to provide a club that shows off all of the amazing qualities and amenities OC has to offer, while also adding additional opportunities to create wonderful memories and new and old traditions alike. Please remember that my "door is always open" and that I am more than happy to meet with anyone or speak to anyone to address any

concerns that you may have, as well as take any requested communication to ownership for consideration and thought. Fall is a great time of the year. It is full of changes and that lines up well with OC, as we begin making changes that you will start to notice happening around the club and the course. The future at OC is bright and I look forward to everything that lies ahead of us. Thank you for your ongoing support of OC and together we will see that OC thrives and continues an upward trajectory and path to excellence.
